

2016 NARAL Pro-Choice Texas Legislative Candidate Voter Guide

NARAL Pro-Choice Texas' mission is to develop and sustain a constituency that uses the political process to guarantee every Texan the right to make personal reproductive health decisions and to guarantee access to the full range of options, including preventing unintended pregnancy, bearing healthy children, and accessing legal abortion.

With the continued attacks on reproductive health, rights and justice, it has seldom been so critical that Texans engage and vote to ensure the election and re-election of our pro-choice champions.

That's why, each campaign season, we work to elect pro-choice candidates by providing tactical support to their campaigns and mobilizing the pro-choice majority to vote.

The general election takes place on **Tuesday, November 8, 2016**. Early voting begins October 24 and ends on November 4, 2016. To find your polling place and to get more information about voting in the November election, visit govotetexas.org.

About Our Ratings

Ratings are based on a candidate's response to our questionnaire, endorsements, and/or information gathered from campaign websites.

Pro-Choice

Candidate believes abortion should be safe, legal, and accessible; supports access to family planning services and comprehensive health education, including information about abstinence and contraception. Candidate believes in equal access to abortion services for all persons regardless of race, age, geography or socioeconomic status, and does not support legislation that aims to curb access to safe, legal abortion healthcare. Candidate opposes medically unnecessary restrictions on abortion clinics and opposes misleading, inaccurate and shameful counseling as mandated by the state.

Anti-Choice

Candidate opposes the right to choose abortion or supports it in such limited circumstances as to render the right to choose meaningless.

NARAL
Pro-Choice Texas

Mixed

Candidate supports the right to choose with restrictions and/or candidate does not believe in equal access to abortion for all persons, regardless of race, age, geography or socioeconomic status. Some candidates classified as mixed choice support the right to abortion access, but do not support Medicaid funding for abortion.

Unknown

Candidate did not respond to questionnaire, candidate was unreachable and does not have a known position of reproductive rights.

Texas House of Representatives

District 1

Gary VanDeaver (R): anti-choice.
